ASKS CONGRESS TO PROBE ANTI-GENTILISM

REDS PLAN WAR WHEN THEY GET ATOM BOMB

To all of us in the United States who have devoted years of careful study to the camouflaged and secretive Red fronts, it is apparent that D-Day for America is not far away. We realize that had it not been for the invention of the atomic bomb by the United States, Russian Communism would months ago have had complete control of every foot of European soil, including Spain. Russia would have controlled Manchuria, sending a Red Army to wipe out Chiang Kai Shek, thereby taking China.

The Red Army is by far the largest in the world, and it has by its side the armies of Russian controlled countries. This places Russia in such a powerful position that she need not respect us, but for the atomic bomb.

Molotov has been hedging in the United Nations, maneuvering and delaying to give the Fifth Column in the U. S. time to have the safety of the bomb placed in the hands of **their** intellectuals. Unbelievable and startling as it may be to the reader, this has apparently been done, regardless of the little sham battles Gromyko and Molotov have with these crusaders of the Atomic Bomb Commission. All that remains to be done now is to place the bomb secrets with an international committee, the majority of whose members will be named by the Communists.

From the strong Communist agita-

tion for a third world war to start in Spain, the recent "kidnapping" of thousands of German officers and technicians; and hold activity on the part of the Red underground here in the U. S., it appears something important is in the making.

No doubt the Kremlin has made arrangements for a general strike and uprising in the United States if we start preparations to protect America from Russia. We believe it will be a miracle if we hold out against Communism for more than a year. If the takeover occurs in three months, we will not be surprised. We sincerely hope that next Christmas religious services will be held in the churches and free people will worship God in their own way. But, unless America has a terrific awakening, we fear that the United States will by that time be in the same condition as is Europe today.

The people of America will not be any more awake to the danger the day before we lose our freedom than they are at this moment, because they have closed their ears and their minds to what they consider to be the ravings of "fanatics". This shows how quietly but effectively the Communists are working. There will probably be no "revolution" for the Communists will control everything necessary to take over the entire 140 million free people. The public will be paralyzed when they see leaders they trusted hand over their departments.

There is only one way out — public sentiment caused by expose of these men. THINK WEEKLY is working to be big enough to take an active part in these expositions as soon as possible.

WRITER SAYS "DAILY WORKER" LIBELS PATRIOTS AS "REDS" SEEK CONTROL AND FINANCE ILLEGAL ENTRY OF REFUGEES WHO LIVE IN HIGH-COST NEW APARTMENTS — CONGRESS IS URGED TO INVESTIGATE.

By Merwin K. Hart, President
National Economic Council, Inc

(continued from last week)

Here is another incident which calls for investigation and exposure:

On November 12, our radio commentator, Upton Close, was the guest of honor at a private subscription dinner of the National Economic Council at the Waldorf-Astoria Hotel in New York. About 160 men and women assembled to pay him honor. Those present were there by invitation, together with their friends. Through lying and misrepresentation, a man who proved to be from the Daily Worker gained entrance. A photographer appeared, saying he represented a reputable pictorial magazine and asked if he could take photographs. There being nothing secret about the dinner (Mr. Close was broadcasting from the speakers table), he was allowed to do so. This photographer, too, lied as to his connection.

Those in attendance were representative citizens, men and women, many well known. The speakers included, besides Mr. Close and the presiding officer, Mr. Phil Stewart of Chicago, former Congressman Samuel B.

CONGRESS URGED TO PROBE ANTI-GENTILES

(continued from first page)

Pettengill, and Mr. E. F. Tompkins, an official of the Hearst Press.

On November 14th the Communist smear sheet published a list of the guests, a facsimile of the dinner program, and an article about the dinner in true Daily Worker style. On November 17th it published the photographs.

This article (together with other articles published by the Daily Worker since the dinner) were, we are advised by our legal counsel, a libel on everybody present. It asserted that the fascist get-together was an all Gentile affair. No Jews were invited to the Jade Room. . . . "This was false. Jews were both invited and were present. It described those present as "Big Business fascists and gutter anti-Semites."

The November 14th issue falsely stated that Hart "has been calling for firing squads for liberals"; and also referred to "the shootings Hart is inciting." This was false. Council Letter 149 said only, with respect to Communists, that "we should provide the death penalty for every card-holding Communist Party member who holds public office and does not resign from that office within ten days after the signing by the President of the act . . ." — which provision is needed to safeguard America by outlawing the Communist Party. No other penalty will get Communist Party members out of office and thus end the absurd and tragic situation where men whose oath of allegiance to Soviet Russia outweighs their oath to the United States, sit in places where they actually share in the making of American policy, or in carrying it out, or are able to block any policy they do not like.

No wonder this mouthpiece of Stalin attacks the National Economic Council. Nothing could prove more conclusively the truth of what the Council has been saying.

The Daily Worker regularly pursues policies that incite violence. The murder on election day of Scottoriggio, the precinct worker for Bryan, candidate for Congress against the Communists' idol Marcantonio, has aroused many who were asleep. Unless groups like the Economic Council expose and fight these desperate men, we Americans will find, as people in other countries have found, that only one step beyond the smear and defamation squad is the liquidation squad. And unless men and

women all over the United States support — even more generously than heretofore — groups like the Economic Council, there will be no groups with knowledge and guts enough to fight.

So, in view of all of these things, let's think plainly and speak plainly. Nor will we be prevented by the hush-hush policy about Jews that has been encouraged at an accelerating rate in recent years at the instance of communistic and ultra-"liberal" Jews, to the irreparable harm of the great majority who are Americans before they are Jews.

In no country in the world have the Jews ever done as well for themselves as here. Most of them have accepted American principles, have been willing to match their very able wits and their resourceful personalities against non-Jews, and have asked no odds. They are Americans first, and Jews afterwards, just as Americans of Irish or French or Italian blood are Americans first and think only secondly of the race or country from which they came.

But, on the other hand, there are some Jews, a powerful vocal minority, that are not satisfied with taking their chances in competition. They have set themselves up as a caste to dictate to all other Americans. And it is no mere verbal dictation. They are not adverse to obtaining their way by intimidation. Their organized cry of anti-Semitism is but a smoke screen to conceal their own anti-Gentilism. They are loud-mouthed, selfish, egotistical, domineering Jews who lord it, not only over non-Jews, but over more reserved members of their own race.

It cannot be overlooked that a large number of the Communists in the United States are Jews, though it is not true that any considerable proportion of American Jews are Communists.

One had only to look around in the hearing room of the Ives Committee of the so-called Anti-Discrimination Law in New York to realize the backbone of the support of that bill was Jewish. One has only to note the populations of apartment houses and hotels in New York and many other big cities in the United States to realize that the enormous influx of Jewish refugees the past ten years is far greater than can be accounted for by the official immigration figures. For today, while the shrill vocal Jewish groups are advocating the letting down of the immigration bars, many refugees, mostly Jewish, have streamed in illegally.

All of this is not happening by chance or coincidence. It is planned.

THE STORY OF COMMUNISM IN ELIZABETH, NEW JERSEY

If we were asked today to name the most Anti-Communist city in the United States, we would say Elizabeth, N. J. For its size it is unquestionably entitled to that distinction.

Up until five months ago the Reds, not being identified as such, had easy sailing in this town and their ranks were growing rapidly. Elizabeth was gripped by an eight-months-old Communist-directed strike, costing two thousand Phelps-Dodge workers four million dollars in salaries.

Then the Communists were exposed by publicity. The Win the Peace movement, a Communist Front, was denied a meeting place in the Y.M.C.A. and all public buildings, including the high school halls.

Today, Communist Fronts in Elizabeth have been forced to go underground or to move on, looking for greener pastures. Vigilant activity by many cooperating organizations has made Elizabeth a safe place for Americans.

The following are some of the organizations responsible for placing Elizabeth in this enviable position: American Legion, Veterans of Foreign Wars, Elks, Knights of Columbus, Marine Corps, Catholic War Veterans, Police Department, Amvets, and the American Emergency Force — and, if we might be allowed a bit of self praise, THINK WEEKLY.

Huge sums of money have, we believe, been contributed by Jews, and some by deceived non-Jews, to bring this situation about. If anti-Semitism is on the increase here, it is mostly due to the activities of these over-aggressive Jews. In threatening the country as a whole, they are threatening most of all the members of their own race. For the great mass of Americans will not submit indefinitely to the arrogant plotting that has gone on — a plotting responsible alike, we suspect, for the John Roy Carsons and the smears of the Daily Worker. Ruthless intimidation has too long influenced American policy.

Gentlemen of the Congress of the United States, this whole situation is too serious to be sidetracked. In justice to both Jews and Gentiles, it should be investigated and the facts laid before the American people. Life in the United States will be wholesomer and cleaner after this has been done. If any of our suspicions are wrong, we will readily admit it.

We do not believe they are wrong.

VOICE OF THE READER

New York, Dec. 17, 1946

I am sending herewith check for \$2 just to help out in any way you deem necessary to apply it, and I propose to help out as best I can from time to time, as I do sincerely desire to help you to carry on. The stuff you are putting out every week in that little paper is splendid. I want to keep on your mailing list at any rate all the time your paper exists, which I hope and trust will be many years to come. I am suffering very much from arthritis, and do not get about much on account of my age (82 this month), but I recommend it to every one of my friends and neighbors that happen about to see me, and I have been mailing quite a number to outsiders with a letter to encourage them to help all possible. If I were forced to make a choice between THINK WEEKLY and all the dailies on the newsstand, I would take T-W and let them all pass up. What we need today more than anything else is the TRUTH, the whole TRUTH, and we cannot get that in any of the big dailies. They have to have the ads and they cannot live without them, so they must always hedge on Truth.

New York

To me it seems that you have done the most worthwhile work that has come out of the war. I have been a history teacher for over fifty years and as I now sit back and look on, it seems to me that this Communistic movement holds far worse threats than all the barbarian invasions and all the past wars combined, perhaps because of insidiousness and treachery! And America still sleeps, more or less, though not as deeply as when you started your THINK in May. . . .

RELIGION — By V. I. Lenin.

"The final emancipation of the toiling masses from religion will occur only after the proletarian revolution, only in a Communist society. This, however, is not a reason for postponing the propaganda for atheism. Rather does it emphasize its urgency in subordination to the general needs of the workers' class struggle."

REDS USE SLY METHODS TO MISLEAD

A worn and well-used trick of Communist strategy is coming back on the market these days. It is the familiar so-called "denunciation" of Communism by the many organizations who have faithfully followed the Party line . . . so faithfully, in fact, and for so long a time, that this publicly known association has now become somewhat of a drawback — a weight around their necks that is slowly but surely dragging them down into disrepute.

The Communist sympathizers in these organizations realize that public sentiment is turning against them. But they have no intention of losing control of their respective groups, which, because of clever camouflage, are able to carry on a most effective form of propaganda. No, these groups at all costs must be kept in line; their work is of the utmost importance to the Communist cause.

In these "front" and Communist-dominated organizations, Red propaganda is very neatly sandwiched in between cries of "tolerance", "peace", and promises of something better for the individual members of each group. Communist leaders, who are expertly trained in schools of propaganda from Newark, New Jersey, to Moscow, Russia, know well the value of the personal appeal; they need but touch on the problems closest to the heart of the individual, promise to help him — not the fellow next door, but **him** — and the Communist propaganda can be sold without an effort. The Communist has won the confidence of the individual by being interested in him personally and from that point on it is clear sailing to convince the unsuspecting innocent that we must have "World Government", that Spain is a threat to world peace, and that all who disagree with this line of reasoning are Fascists.

Beware of these false "denunciations" of Communism which are planned to trap the good sincere American citizen and fool him into believing that the Communist followers have realized their mistakes and that they, too, are to become good, sincere, American citizens.

Yes, some individuals and some groups honestly, fearlessly, and sincerely denounce Communist infiltration in their ranks; those people we will back up and we will give them credit for having the courage to weed out the bad from amongst the good. But, you will ask, "How can you tell whether these denunciations are honest or

not?" There are a few ways to determine this. First, instead of reading just the headline of such an article, which says, for instance, (PM, December 16), "Left-Wing Union Rejects Communist Interference"; read on down the line 'til you come upon the "policy statement" issued by the CIO United Office and Professional Workers of America:

"In accordance with its established policy, it will firmly oppose any efforts to interfere in its affairs by any political party, whether it be the Communist Party, the Socialist Party, the Democratic Party, the Republican Party, or any other political party or fraternal society or religious organization or other outside organization."

This "resolution" gives quite a different story from the blaring headline, doesn't it? It certainly does reject the "Communist Party" as a party, but does it say one word about rejecting the doctrine of "Communism"? The very fact that the Communist Party is placed in the same category as the Democratic and Republican Parties — that it is considered "just another political party" — should betray the real policy of this Red union.

The second way in which we can determine whether these "denunciations" are honest is to observe the actions of the groups in question. We would advise you now to sit back and watch this CIO union; see who their playmates are going to be in the future; watch for their statements of policy on national and international affairs; and take particular notice of the union spokesmen and their connections. That will tell the tale!

Watch, also, the American Veterans Committee, who made public a denunciation of Communism — almost at the very moment their president, Charles G. Bolte, was pleading the cause of "World Government" at a meeting in Montclair, N. J.

"Actions speak louder than words" And while the American people are trustingly believing "words", the "actions" are crying aloud the betrayal of these very people.

UNION MEN: Attend your meetings and don't let the few noisy Reds wear you out with long meetings so they may pass important issues when you leave or if you don't attend at all. It takes work and sacrifice to drive these Reds from your unions.

**THERE ARE MORE COMMUNISTS
IN THE UNITED STATES
THAN IN RUSSIA**

Are you willing to do half as much work to keep your freedom as the Communists are to take it from you?

Misguided Reds work tirelessly to increase the number of readers of their many papers and magazines.

To make it easier for you to help your Anti-Communist weapon, increase the number of readers. THINK WEEKLY will accept subscriptions during the month of January at the special rate of \$2.00 for one year, \$1.00 for six months. The only way to save America is to expose the Traitors. Build informed public sentiment.

Solicit your friends and send in a few subscriptions today. They will appreciate your interest.

The purpose of this paper is to turn the searchlight of exposure on these traitors to our country. At least 90% of Fifth Column activity in the United States is underground and quiet. Like a submarine, only the periscope shows.

There are more than three times as many Communists and active Red Front members in the United States than there are Communists in Russia. But those few Communists rule 180 million Russians with an iron hand.

Why get high blood pressure about government in Spain? If the United Nations want to liberate some people, why not liberate the millions of Russians? And how about the Polish people, slaves to Russian Communism?

But most important to us, right now, is to save 140 million Americans from slavery to Commissars who almost have their program completed. And they have been working right under our noses.

ADDRESSOGRAPH

If some business house has an extra Addressograph machine not in use and would like to give it to this important work, it would be greatly appreciated. Where could it render a better service for America?

Write your Congressman and United States Senator today, ask him in a courteous, forceful way to do all in his power to outlaw the Communist Party and deport all alien Communists and at least a million Red refugees who entered here illegally.

Then we will have housing for our own veterans. Why should Americans house those who are working tirelessly to destroy our government while boys who were born here and fought to pre-

serve our government are denied housing?

Why are these refugees more powerful with this administration than native veterans? Because they are really organized and their spokesmen demand intimidate and threaten with a solid block of votes which is steadily being enlarged by arrival of refugees.

Call your newspaper, secure the address of your Representative and write him today, demanding that America be preserved for Americans.

Spain is the main threat to world peace !!!

Why not demand that Stalin get out of all these countries? Certainly, do not help him add another country to his list by placing Spain under Communism. After all, Franco is Spanish and it is a Spanish Government in

Spain.

What kind of government rules these fifteen countries listed? Russian Communist rule by bloody Stalin, who now wants Spain. Next will be the United States.
